For Your Family

# HI-TA817

7-Platinum Plates  
Alkaline Water Ionizer

**MADE IN JAPAN**

## Technical Specifications

MODEL : HI-TA817

Type	7 Platinum Plate Water Ionizer	Features	- New PFC (Platinum Fine Coating) Electrodes Technology
ORP	Max. -1000mv		- Unique Electrodes Design Patent
PH Value	2.7 ~ 10.5		- Automatic Reverse Cleaning Design Patent
Electrodes	7 Platinum Plate		- Automatic Indicator Alert for Built-In Filter Replacement
Watt	250W		
Flow rate	Max. 5.5ℓ/minute		
Weight	5.7 kg		
Dimension		Certification	TUV / ISO13485 / SGS Certification

Installation  
Counter-Top / Wall Hanging

## Benefits of Alkaline Ionized Water

Improve anti-bacterial effects. Kill atopic skin diseases.

Electrolyzed water is rich in liquid vitamins and minerals such as ionized calcium, which aids in prevention of osteoporosis.

Electrolyzed ionized water helps to preserve nutrients within foods during cooking as well as the natural taste and flavours of the food.

Washing vegetables and fruits to remove pesticide and chemical.

2.7

Acidic

3.0

5.5

6.5

8.0

9.0

9.5

Alkaline

10

Sterilization of the seafood smell.

Effective for skincare to bring back the smoothness to skin and sheen to hair.

Drink after exercised as alkaline water replenishes the electrolyte balance 3 times more than other waters.

Tea, coffee and other beverages taste better and smoother.

## AUTOMATIC REVERSED CLEANING SYSTEM

During electrolyzing will be cleaned by 1/50 second (3600 times each hour) and auto flushing every time after used

Max. Flow Rate  
5.5 l /minute

TUV  
Certified

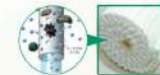

## QUICK-CHANGE REPLACEMENT CARTRIDGE

Certified by JIS (Japan) / SGS (Taiwan)

0.01µm UltraFine Membrane

Blocked over 0.1 micron particles

Special Fiber Activated Carbon Filter

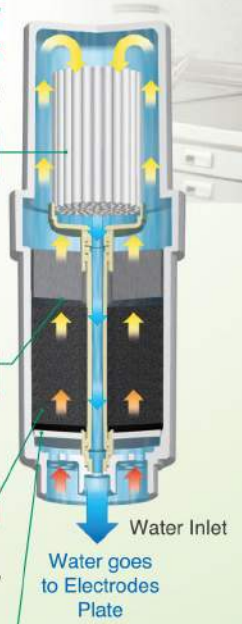

Remove sediment & other impurities

Anti-Bacterial Granular Activated Carbon Filter

Special ion exchange fibrous activated carbon, remove lead from the water pipes

Special Textile Filter

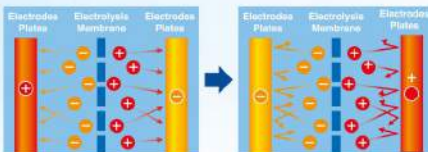

Selection of big area attachment of activated carbon to filtered musty & trihalomethanes

## Automatic Reversed Cleaning Design

Normal Design

Unique Patented Design

## Silent Cleaning & Extending Lifespan

While operation, every 1/50 second the reverse polarity cleaning eliminates the mineral scaling from the electrodes plate and will automatic flushing-away for 10 seconds after used.

The automatic self-cleaning system will ensure you to have a long lifespan ionizer.
